I started as a facilitator after attending one of CE Training Workshops live workshops. It has been such a great experience to be new to the team. Lorna was clear, helpful, and very patient in helping me prepare for my first training. As a previous participant at a training earlier this year I am honored that I get to be amongst such great facilitators!

Linda Hammock

This was a convenient, stimulating training for a very reasonable price! I will use CE Training Workshops again.

This was my first experience with CE Training workshops which I viewed online for both Ethics and HIV training credits. I was very impressed with how organized and informed the moderator was as well as the clarity of the information.

The content of the webinar " Supervision Essentials for the Practice of Competency Based Supervision," provided excellent framework for the foundation of this critical Supervisor-Supervisee relationship and the robust breakout sessions encouraged great discussion points from seasoned Clinicians. I learnt a lot and will look forward to my next webinar with CE Training Works!

I have taken many CEUs from several companies. I do enjoy each style; however, I have now taken a couple of these classes. I would say these classes offer a much more in-depth understanding because it is live, and the speakers/lecturers are so knowledgeable. I highly recommend this education company. It is an amazing platform.

Jon Sadler

An excellent review of the various types of drugs and the perspective of the people who depend on them.
